Continue ramp foundation and ramp install.

“It’s been wonderful to participate in the bi-weekly planning visits at the site of the new home in Hopewell, along with the contractors and architect, and to watch this cutting edge project come to life! Once the home is ready, it will provide an opportunity for four adults with developmental disabilities to lead full lives in the community. Every home that is opened or built makes it possible to greatly improve the quality of life for these individuals that would otherwise remain institutionalized or who can no longer remain with family members. It is inspiring to be a part of such a mission!”

- Stephanie Lyles  
Associate Executive Director for Mercer County, Community Options, Inc.
