The Cupid Chase 5K was founded in 2009 to happen at the same time in cities all over America to raise money and awareness for people with disabilities. On February 13, 2016 over 30 cities participated including **Pennsauken**, NJ. With air

temps in the low 20s and gusting winds bringing wind chill temps as low as zero at times, some brave souls braved the elements at Cooper River Park in Camden County New Jersey. The 3.26 mile course lapped a very frozen Cooper River. Great job for those that were able to put mind over matter and do this run. It was not comfortable.
