Morristown car dealer donates electric cars

MINI of Morristown donated 12 of its MINI E electric cars to Community Options, which develops housing and innovative employment opportunities for people with developmental disabilities.

The organization will use the cars as part of a year-long trial for its entrepreneurial businesses and group homes.

"MINI of Morristown has made a great decision in choosing our operation to operate these electric cars - as we have the workforce that can put these vehicles to the test," said Robert Stack, Community Options president and CEO.
