**Governor Thomas H. Kean** was rated among America's five most effective state leaders by Newsweek magazine; noted for tax cuts that spurred 750,000 new jobs; a federally replicated welfare reform program; landmark environmental policies, and over 30 education reforms. During the Governor's tenure, many of us witnessed him signing legislation expanding the Division of Mental Retardation to support persons with Autism, Cerebral Palsy, Epilepsy, Spina Bifida, Traumatic Brain Injuries and other neurological disabilities. He created the Governor's Office on Prevention of Mental Retardation and supported the reduction of institutional care of 8,100 people with disabilities to less than 4,200 people thereby creating the largest development of community based supports in the history of New Jersey.

**Morven Museum & Garden** is located in the beautiful town of Princeton, New Jersey. This former home of a signer of the Declaration of Independence also served as New Jersey's first Governor's Mansion. Morven is the "people's" place: a National Historic Landmark owned by the State of New Jersey and operated by the non-profit, Historic Morven, Inc.

**Community Options** is delighted to celebrate its 25th year of service to people with disabilities at this historic home and is honored that such a prestigious elder statesman will celebrate with us on our silver anniversary. The net proceeds of these donations will be applied to the purchase of new homes.
