At right, Kevin Wilkes AIA, with Princeton Design Guild, tours the Community Options home for disabled under construction at 1617 Harbourton-Rocktown Road in Hopewell Twp. With him from left are Kathryn Sampson and Denise Nosko with Community Options, Inc. Organizers expect the project to be completed by April next year with a move-in by June 30. Once the group home is ready, it will provide an opportunity for four adults with developmental disabilities to lead lives that may have not been attainable otherwise.
