Community Options, Inc.

In support of People with Disabilities

Local Sponsorship Opportunities

Community Options, Inc. develops housing and employment supports for individuals with developmental disabilities, severe physical and cognitive disabilities, and people with traumatic brain injury. Serving more than 3,000 individuals across 11 states, the cost to care for and provide a high quality of life often exceeds the financial support received through government funding. Cupid's Chase 5K is the organization's fun and engaging way to raise the funds to bridge the gap between government funding and actual costs of providing services. For more than a decade, Cupid's Chase 5K races have been raising funds to enhance lives of the individuals served by Community Options. Fueled primarily by corporate sponsorships, the races provide much-needed funds in the communities where we operate, ensuring that the individuals we serve have well-maintained homes to live in, transportation, recreation, and employment support.

In 2019, Community Options is proud to be celebrating its 30th year! The 2019 Cupid's Chase 5K will be held in 46 cities across 11 states in the U.S. with nearly 10,000 runners, donors and volunteers. In 2019, Cupid's Chase will raise nearly \$1 million at the family-friendly, non-competitive 5K across the country. For a list of races, please visit www.cupidschase.org.

The Cupid's Chase 5K allows corporations to enhance their brand, event and media exposure, and visibility to a national audience. The purpose of the Cupid's Chase 5K is to raise awareness about the vast potential of people with disabilities such as autism, cerebral palsy, down syndrome, and traumatic brain injury; potentials that in many instances were historically overlooked and marginalized by the general public. Sponsors enjoy the benefits of alignment with an organization that provides critical services to those in need.

Corporations join Cupid's Chase each year through event sponsorship, in-kind product and media donations, cause campaigns, employee volunteerism and fundraising teams. They are able to reach potential consumers in a deep and meaningful way, as well as, demonstrate their commitment to corporate philanthropy among customers, employees and key stakeholders.
